

the Vertical filing cabinet

Rosengrens the Vertical protects all important documents in a fire

Every day a large number of offices and companies are exposed to fire causing enormous costs due to destroyed information and valuable documents. Do not take any risks! Protect your documents from being destroyed in event of fire in a tested Rosengrens Filing Cabinet.

Tested and approved

Rosengrens Vertical have been tested and approved by SP in accordance with the Scandinavian norm NT Fire 017. This means that documents stored in a Vertical will be legible even after 60 minutes in a major fire.

Sizes and design

The Vertical range is available in three sizes with 2, 3 and 4 drawers. That means a storage capacity from 1330 up to 2660 mm.

Choose between a light grey (RAL 7035) or an off-white colour (RAL 9002) as standard.

The modern designed handles have a unique system for labelling each drawer. Easy to find what you are looking for!

Flexible fittings

The Vertical can store both A4 and folio format. As optional extras the Vertical can be equipped

with different types of supports and insert trays. If you are looking for combined storage, data and documents, a data media insert is available.

Lock options

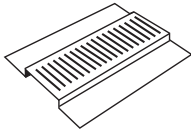

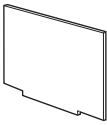

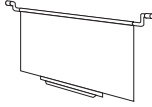

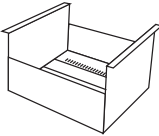

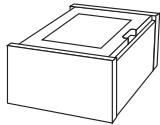

The Vertical series is equipped with a central locking where every separate drawer is locked to the frame. As standard you also find special anti-tipping device preventing you from opening more than one drawer at a time.

Rosengrens is Europe's leading manufacturer of security solutions. It is our responsibility to inform you how to protect your most valuable assets against fire, break-ins and theft. It is our job to provide the tailor-made solutions. We have been doing it for over 150 years, so we know our business.

Consult us when it comes to security, because Rosengrens is more than just safe.
